Apache

Mo D Jabeen

July 13, 2023

1 General

- Need to set firewall to accept WWW
- Add mods using a2enmod command
- enable sites in sites available using soft link (ln -s)

2 Proxy

Need to add proxy mods to enable proxy

Listing 1: Macro definition

```
1
2       <VirtualHost *:80>
3
4       ProxyRequests Off
5    ProxyPreserveHost On
6    ProxyVia Full
7
8       <Location /directory>
9       ProxyPass http://127.0.0.1:2021
10      ProxyPassReverse http://127.0.0.1:2021
11      </Location>
12
13      ErrorLog ${APACHE_LOG_DIR}/divination_proxy_error.log
14   CustomLog ${APACHE_LOG_DIR}/divination_proxy_access.log combined
15
16      </VirtualHost>
```
